Come join us for an “Outer Limits” experience in the Green Mountains of Vermont. On a five day lift ticket, we will be skiing at six Killington mountains, as well as, Pico Mountain resort. With over 250 inches of natural snow a year and the world’s most extensive snow making system, Killington is a great family vacation. There is something for everyone, from wide open groomed cruisers, narrow classic New England runs, moguls, steeps, and trees. From the top of K-1 Gondola, the highest point in New England, you can take in the breathtaking panoramic view of five states and Canada. Even if you don’t ski, you’ll have a great time: snowmobiling, snowshoeing, dog sledding, relaxing in a spa, or even some shopping.

The Pinnacle Condominiums are two bed room, four person condos. With free shuttle service to the slopes in the morning (a three minute ride) and to evening nightlife. All condos are equipped with a full kitchen, washer/dryer, non-smoking, free wireless internet, gas fireplace, and daily house keeping service. The Pinnacle Spa features an exercise room, game room, TV lounge and two hot tubs (one 20 person and one 8 person tub).
